3b. Community Garden: A. Prior provided a summary of the comments received from Allyson Ryder and Bill Clapp (both members of the North Hampton Community Garden) at the Agricultural Commission's meeting on January 16th. Commission members discussed the issues briefly, but agreed that meeting at the garden to discuss these concerns while at the site would be best. The suggestion was made to hold the March meeting at the North Hampton Community Garden and start an hour earlier so that there would still be daylight. The next meeting will be March 20, 2023 at the North Hampton Community Garden. In case of inclement weather, the meeting will be at 7:00pm at the Town Clerk's Office. A. Prior will monitor the weather forecast and make the determination closer to the meeting.

3c. Goals for 2023: Two goals in the Agricultural Master Plan chapter are supposed to be completed by the end of 2023. The first is to host a speaker or write an article on Best Management Practices (BMPs) in agriculture. The second is to

host a speaker or write an article about New Hampshire's Current Use Program. The commission plans to update its brochure this year, and agreed that Current Use may be a good topic for the brochure. Links could be provided for people to find more information, along with a basic overview of what the program is and how it works. Other topics that had been previously discussed for the brochure, an article, or a speaker, include compost, protecting chickens from predators, rodents and pests, and goats.

3d. Newsletter articles/"Interview with a Farmer" project: The next newsletter article should be due in May. P. Ford will contact C. Kasztejna and work on the interview with a farmer article for this submission.
