

## **Little Boar's Head Heritage Commission 6/23/2022**

**Attending:** John Knapp, Jane Gnazzo, Bob Hamilton, Margaret Schoenberger, Debby Kanner, Angela Stevens

**New Hampshire Historical Highway Marker:** John Knapp has suggested that we apply to the state for a historic marker on the history of Little Boar's Head. Proposed marker would be placed on Ocean Boulevard. State markers have very specific guidelines regarding number of lines and number of characters per line. John had sent a draft of text for the marker in December, however two members did not receive the email. Email addresses corrected, we considered possible wording. After edits suggested, we concluded that it would be best to continue our discussion at the next meeting so members have time to consider the sign narrative further.

**Fish House Sign:** The sign we erected at the Fish Houses to inform about their history has deteriorated. The coating shredded. John will get in touch with Timberline Sign to inquire about replacing it.

**Social Event:** Members discussed the idea of hosting a social event highlighting our mission and the signage located by the Fish Houses. It was suggested that we approach the Rye Beach / Little Boar's Head Garden Club as a potential partner in planning such an event as the Fish Houses and Garden are adjacent.

**Next Meeting:** Scheduled 7/21/2022
