

Little Boar's Head Heritage Commission notes 7/21/2022

Attending: John Knapp, Jane Gnazzo, Debby Kanner

NH Historic Highway Marker: Reviewed and revised text for the proposed Little Boar's Head marker. Edits suggested and agreed upon. John informed us about the application process. The narrative must be annotated specifying sources and a member must be designated as sponsor. (Subsequently, John notified members that the State of New Hampshire Historical Marker Program is temporarily on hold and not accepting new proposals.)

Fish House Sign: Noted by members at the last meeting that the sign we had erected several years ago explaining the history of the Fish Houses has deteriorated considerably. The coating meant to protect the sign has shredded and the sign therefore faded. John has contacted Timberline Signs and they will replace the sign. Brian Goode has informed us that the commissioners have the money to pay for the replacement which will be of improved quality. Members agreed to go ahead with replacement.

Next Meeting: August 25th if necessary.

Respectfully Submitted,

Debby Kanner
