Re: Road Improvement Project

September 29, 2017

Dear Lovering Road area resident,

The Lovering Road improvement project is tentatively scheduled to begin in mid-October this fall. This road improvement project will be completed in two phases. Phase one will begin in October and will take approx. 2 weeks to complete. This phase will include reclamation of approx. 2500 ft. of the existing pavement, regrading, and installation of 2.5" base course paving. The balance of the roadway (approx. 1 mile) will be treated with a full width asphalt shim course. Phase 2 of the project will consist of an installation of a 1 1/2" top surface course to the entire length of the roadway and will be completed in Spring 2019. During the project, Lovering Road residents will have unlimited access to their homes with minimal delays during the reclamation and paving phases. Thru traffic on Lovering Road will be detoured from 7:00 AM to 5:00 PM daily onto Walnut Ave. to Post Road. We ask that residents on the west side of Lovering please access their homes from the Walnut Road entrance during these hours.

This schedule could change due to weather.

Additional clean up of driveway aprons and shoulders will continue thru November.

If you have any questions or concerns please call me at 964-6442

Thank you in advance for your patience and cooperation,

John Hubbard
Director, North Hampton DPW
