Susan Buchanan
Town Clerk
Town of North Hampton
Atlantic Avenue, North Hampton NH 03862

Dear Susan,

I would like to file an official ethics complaint that should go to the ethics committee.

While at dinner on August 12th at Bogies in Hampton, Wally Kilgore introduced himself to me. I didn't remember him so he had to remind me who he was.

The conversation started friendly as we traded pleasantries and reintroduced ourselves.

However, the conversation took a quick turn towards intimidation. I will keep my summary of the conversation short. In fact the entire conversation lasted no more than 3-4 minutes once Wally became verbally aggressive.

He stated that the board's behavior and my behavior explicitly was unfair to the last applicant's request for variance to not perform hydrogeological testing. He stated that I was rude to the applicants and that we should respect high paying tax members. He made this point several times in offending language. Frankly I was quite shocked and surprised by his behavior and approach in a public place.

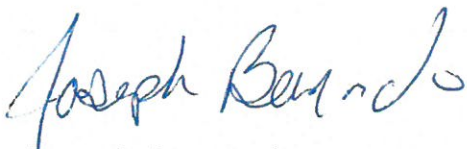

He continued to blame me for Route 1 development and that it will never happen because of people like me and how I treat people as a zoning board member. As stated I was extremely surprised about the approach and what I viewed as a personal verbal attack.

I told him my vote was my vote and I have nothing to add. He reiterated he watched the video multiple times and was annoyed with the outcome and behavior.

I feel this intimidation especially by someone who is active in the town and a planning board member is inappropriate. If Mr. Kilgore had a concern he should have brought them forward at either the zoning board meeting or in another public forum. He is fully aware of the rules and ethics of the town and decided to take a very unprofessional approach towards the decision of the Zoning Board (4 to 1 vote).

Zoning Board Member and concerned citizen

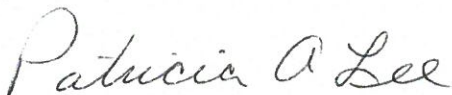

Sincerely,

Joseph Bernardo
