Re: RSA 234:25-b Inspection of Red List Bridges: Report

Dear Governor Hassan:

In accordance with *RSA 234:25-b Inspection of Red List Bridges: Report*, enclosed please find the initial submittal of the 2015 state and municipal Red List bridges, compiled by the New Hampshire Department of Transportation. As stipulated, copies of this letter and Red List information will be distributed to other elected officials and to the municipalities, via email and/or paper copies. Current bridge data, including State and Municipal Red Lists, can also be found on the NHDOT Bridge Design web page at <http://www.nh.gov/dot/org/projectdevelopment/bridgedesign/documents.htm>.

The enclosed lists contain preliminary/draft information detailing anticipated changes to the current Red List (2014), based on inspection data gathered through December 31, 2015. The lists identify bridges added and bridges removed from the 2014 Red List. This data is currently being reviewed for accuracy and completeness, after which the final data will be uploaded into the Department's Bridge Management Database prior to being reported to FHWA in April 2016. A copy of the final State and Municipal Red Lists for 2015 will be sent to you as soon as they are available (prior to April 2016) so that you will have current Red List data for reference. All bridge inspection data is gathered in accordance with the National Bridge Inspection Standards (NBIS), per Federal Highway Administration (FHWA) regulations.

Should you have any questions in regards to this information, you may contact Peter E. Stamnas (PEStamnas@dot.state.nh.us) or David E. Powelson (DPowelson@dot.state.nh.us) in the NHDOT Bridge Design Bureau at (603) 271-2731. They will be able to respond to any inquiries on this data.

Sincerely,

Victoria F. Sheehan,
Commissioner
